

Dear Applicant:

The Golden Gate Section of the Society of Women Engineers (SWE-GGS) is pleased to announce its 2017-2018 High School Scholarship Program!

The GGS section has one of the top five scholarship programs as ranked against other SWE sections across the nation. Each year we award more than \$18,000 to local young Bay Area women graduating from high school and pursuing degrees in engineering or computer science. In 2016, the GGS Section awarded 8 scholarships with support from members and local companies including Oracle, Chevron, MWH Global, The Salinas Family, Vicki Solomon, and Lisa Duncan.

Scholarship applications, including support material, must be postmarked no later than Friday, March 23, 2018. Applications will be judged by a committee of engineers from the Golden Gate Section who represent different fields of engineering. Applications will be evaluated based on academic achievement, references, extracurricular activities, and a personal essay. Quality of the application and student financial needs will also be considered. Please be sure to use the enclosed form as our applications may be revised from previous years. Additional copies may be obtained from the Section website or can be reproduced at your school. Recipients of SWE-GGS Scholarships will be notified in late April and will receive their awards at our annual scholarship banquet in May 2018.

Awardees will be featured on the GGS SWE website. If you have questions about the scholarship program, please contact me at 917-940-0479 or g.oconnell@berkeley.edu. For information about SWE scholarships at the Society level, visit <http://ggs.swe.org/scholarship.html>.

Sincerely,

Grace O'Connell, PhD
Assistant Professor
Mechanical Engineering
University of California, Berkeley
Golden Gate Section Scholarship Chair
